DETAILED ACTION

Oath/Declaration

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

- a) The date of the Japanese Patent Application is wrong, i.e., July 21, **2001**. Please note that the correct filing date is July 21, **2000** as stated in the Certified Priority Document.
- b) It does not identify the mailing address of each inventor. A mailing address is an address at which an inventor customarily receives his or her mail and may be either a home or business address. The mailing address should include the ZIP Code designation. The mailing address may be provided in an application data sheet or a supplemental oath or declaration. See 37 CFR 1.63(c) and 37 CFR 1.76. **Please note that the Post Office Address or mailing address of the fourth inventor is missing.**

Applicant is now required to submit a substitute declaration or oath to correct the deficiencies set forth in this communication. The substitute oath or declaration must be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability" (PTO-37). Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136. Failure to timely file the substitute declaration (or oath) will result in

Art Unit: 2125

ABANDONMENT of the application. The transmittal letter accompanying the declaration (or oath) should indicate the date of the "Notice of Allowance" (PTOL-85) and the application number in the upper right hand corner.

Allowable Subject Matter

2. Claims 2-3, 10-11 and 18-19 are allowed.

The following is an examiner's statement of reasons for allowance:

a) Applicant's arguments filed March 15, 2005 with respect to amended claims 2, 10 and 18 are persuasive, please refer to Page 5, paragraph 5 and Page 6, paragraph 2.

b) The allowability of the claims resides, at least in part, that the closest prior art of record **Inui (US 5,204,821)** does not disclose or suggest, alone or in combination the step of:

Regarding independent claim 2, **correction means for correcting the virtual production line prepared by the virtual production line preparation means according to actual production results of the object, wherein the parts ordering means places a parts order after calculating a parts ordering timing based on the corrected virtual production line**, in combination with the other elements and features of the claimed invention.

As for independent claim 10, **a controller that: corrects the prepared virtual production line according to actual production results of the objects, and places a parts order after calculating the parts ordering timing based on the corrected**

virtual production line, in combination with the other elements and features of the claimed invention.

As for independent claim 18, **correcting the prepared virtual production line according to actual production results of the objects, and placing a parts order after calculating a parts ordering timing based on the corrected virtual production line**, in combination with the other elements and features of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
